

Surface Preparation Solutions

That Do the Hard Work For You

Surface preparation is the key to coating system adhesion and long-lasting protection that will result in saved time and money. Corrosion Innovations is proud to announce that we have acquired Chlor*Rid™ and now provide several powerful corrosion solutions under one roof. With more than 200 years of combined coatings and surface preparation experience, our team of AMPP-certified corrosion experts are devoted to continuous innovation by identifying and treating impurities that unnecessarily cost time, money, and precious resources. We are proud to provide simple yet powerful solutions to the chronic problem of premature coating failure. To purchase or learn more about the Corr-Ze™ and Chlor*Rid™ products, visit corrinnovations.com.
